

NACCRRA, the Centers for Disease Control, and the Office of Child Care are excited to announce the launch of **Let's Move! Child Care State Challenge!**

Let's Move! Child Care is an effort to promote children's health by encouraging and supporting healthier physical activity and nutrition practices for children in child care. With more than 20% of children between 2 and 5 years old overweight or obese, the child care community is an essential ally in the effort to prevent childhood obesity, support children's healthy development, and prevent the occurrence of later chronic disease.

Join family child care and center-based providers who have already committed to **Let's Move! Child Care** by signing up at www.HealthyKidsFuture.org for updates, webinars, and to share your success stories.
